## Piston Assembly

Self-Cleaning Bypass

Chloramine Resistant  
Cup washer

All Brass Nickel Plated  
Construction

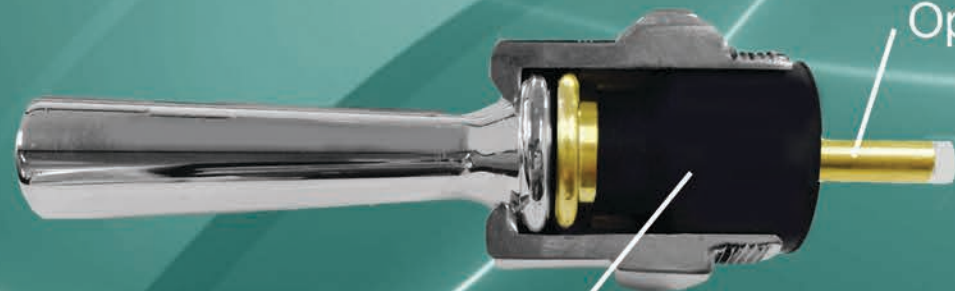

Non-Hold-Open Feature

## Rubberflex Handle Assembly

Operating Stem

Rubberflexer

## The Empire Piston Valve

The Empire is Delany's answer when choosing a Piston Valve.

Complete with all the features that make a Delany Valve stand out from the rest:

- *Main valve seat is below supply line inlet allowing the supply line to be flushed with 100% confidence, a hallmark with all Delany Valves.*
- *A self-cleaning bypass, no filters to clog.*
- *The leak-free Rubberflex handle assembly.*
- *Solid brass piston cartridge nickel plated prevents both corrosion and impurity build-up, provides superior performance at lower psi level, as well as durability.*
- *Slip-Fit adjustable tailpiece with "O" ring design allows for easier and faster changing of tailpieces.*

The Empire is available in all of today's LEED HET gpfs, and has an optional SmartHandle, the only leading Piston with dual flush capability!
