

Delany Products Introduces the Tru Family of Products:

Our top-of-the-line products, now with the patented TruStop standard, in addition to the Delany Mashaerator and other Delany Differences built in for quality and cost savings

TruSTOP

The **TruStop** is a breakthrough in commercial flush valve technology. Our patented innovation is poised to save commercial building owners and facilities teams time, money and enormous headaches.

TruSABER

Modern, Sleek and Beautiful.

With unrivaled features like the patented **TruStop**, the self-cleaning Mashaerator diaphragm and the only valve proven to eliminate water hammer, the TruSaber is setting the standard for the market today.

TruEDGE

Our newest product is the **TruEdge**. State-of-the-art electronics and solenoid combined with the TruStop and Mashaerator, make it the perfect hands-free complement to Delany's Tru Family of products.
